

# Find An Installer Scheme

## Terms & Conditions

### How It Works

The Powrmatic 'Find an Installer' scheme enables installers of Powrmatic's heating and air conditioning equipment to have a company profile of which can be viewed and contacted by our website visitors if they are requesting installation and/or service and repair of our products.

Using an integrated Google Map, website visitors can enter their postcode to find installers of Powrmatic equipment in their area. A simple form is filled out by the end user which will then get emailed to their chosen installer, their local Powrmatic Area Sales Manager and Powrmatic head office.

### General Terms & Conditions

- Inclusion is at the discretion of Powrmatic Limited and Powrmatic's decision shall be final.
- Installers must be recommended by the local Powrmatic Area Sales Manager.
- Each installer profile address must be a bona fide office from which orders are placed on Powrmatic Limited.
- If an installer has more than one office, a second profile can be created for that office provided that it is also a bona fide office from which orders are placed on Powrmatic Limited. This will help prospective customers find a convenient installer.
- A requirement of being listed on the 'Find an Installer' scheme is that the current Powrmatic logo is displayed on the home page of your website and you as an installer make reference to the fact that you install and service Powrmatic products.
- Powrmatic will not display any direct links to an installer's website or display telephone contact numbers.
- Any enquiry sent to the installer is at Powrmatic's discretion and will be stored and logged on Powrmatic's system. A receipt of any such enquiry by the installer will be taken that Powrmatic has the right to request information relating to that enquiry and its validity and progress. The installer agrees that such information would not be unreasonably withheld.
- Installers are responsible for keeping their profiles updated and should notify Powrmatic of any changes to their profile by emailing [info@powrmatic.co.uk](mailto:info@powrmatic.co.uk). Powrmatic accepts no liability whatsoever for the content or accuracy of the profile.
- Installer profiles on the Powrmatic website must not contain any information relating to our competitors and must promote Powrmatic and Powrmatic's products in a positive way.
- The profile may not make claims in respect of Powrmatic products or services which exceed those of the manufacturer.
- It is the responsibility of the installer to ensure that they are suitably qualified to carry out any work on behalf of any enquirer. Contractual arrangements between the installer and their enquirers/end user's clients are the sole responsibility of those two parties alone and Powrmatic does not provide any recommendations, warranties, guarantees or representations save those relating to Powrmatic's products and confirmed in Powrmatic's Terms and Conditions of Sale, copies available via the Powrmatic website.

### Installer Information Required

- Registered company office details and contact information.
- Company logo and 3 additional images if you wish.
- Company profile detailing services provided.
- Email address to which generated enquires should be sent.
- Clearly state if you supply & install and/or service and repair our products.
- Clearly state if you are a buyer of Powrmatic heating and/or air conditioning products.
